PROFESSIONAL SUMMARY

Frontend Developer with **2+ years of experience** building modern, scalable, and user-centric web applications. Specialized in **React.js, JavaScript (ES6+), TypeScript, Redux Toolkit, and UI frameworks**. Strong expertise in developing **pixel-perfect interfaces** from Figma designs, optimizing application performance, and delivering high-quality solutions for **U.S.-based clients**. Adept at component-driven architecture, API integrations, and Agile collaboration.

TECHNICAL SKILLS

Frontend
React.js • JavaScript (ES6+) • TypeScript • Next.js
Redux • Redux Toolkit • HTML5 • CSS3 • Tailwind CSS • Material UI • Ant Design • Bootstrap

Backend / API
Node.js • Express.js • RESTful APIs

UI/UX
Figma • Wireframing • Component Design • Prototyping • Design Systems

Database
MongoDB

Performance Optimization
Lazy Loading • Code Splitting • Memoization • Image Optimization

Tools
Git • GitHub • VS Code • NPM/Yarn • Agile/Scrum

PROFESSIONAL EXPERIENCE

Cognizant Technology Solutions — Frontend Developer
Pune, India | October2023 – Present

- Developed **scalable, reusable, and responsive UI components** using React.js, TypeScript, Tailwind CSS, Material UI, and Ant Design.
- Translated **Figma designs into pixel-perfect interfaces**, maintaining UI consistency with design system standards.

- Improved application load time and performance by **30–35%** using lazy loading, memoization, and code splitting.
- Implemented **Redux Toolkit** for predictable state management and reduced redundant API calls.
- Integrated **REST APIs** with proper caching, structured error handling, and optimized routing logic.
- Created **shared component libraries** to boost development efficiency and maintain UI uniformity across modules.
- Ensured **WCAG accessibility**, mobile responsiveness, and cross-browser compatibility.
- Closely collaborated with backend, QA, and UI/UX teams in **Agile/Scrum** sprints to deliver high-quality features.
- Participated in code reviews, sprint planning, task estimation, and documentation.

PROJECTS

LuxeGleam – Jewelry E-Commerce Platform
Role: Frontend Developer
Tech Stack: React.js, Javascript, Redux Toolkit, Chart.js, Tailwind CSS, Material UI

Project Summary:
IntegraView is an enterprise-grade analytics platform offering real-time dashboards, drill-down reports, KPI tracking, and customizable widgets for business users.

Key Contributions:

- Built **interactive dashboard modules** with real-time charts, KPI cards, and data visualization components.

- Converted Figma prototypes into **pixel-perfect, responsive layouts** using reusable component patterns.

- Implemented **Redux Toolkit slices** for managing filters, user preferences, widget settings, and API caching.

- Boosted dashboard performance by **32%** through code splitting, lazy loading, and memoization techniques.

- Developed **configurable dashboards** with customizable charts, tables, and drag-and-drop widgets.

- Integrated **secure REST APIs** for analytics, reporting, and role-based user access.

- Ensured **WCAG-compliant accessibility**, semantic HTML structure, keyboard navigation support.

- Collaborated with backend and UX teams to improve workflows and component architecture.

EDUCATION
Bachelor of Engineering (Information Technology)
Bharati Vidyapeeth College of Engineering for Women, Pune
Graduated: Aug 2022

SOFT SKILLS
Problem-Solving • Team Collaboration • UI/UX Understanding • Communication • Attention to Detail • Agile/Scrum
