PRIYA BHONDWE

Software Engineer| React.js Developer | Full Stack Developer |Frontend Developer | Accessibility Developer
Pune, India | +91-7276132566 | priyaabhondwe@gmail.com | portfolio | github

PROFESSIONAL SUMMARY

Software Engineer with 3 years of experience developing scalable, responsive, and accessible web applications using React.js, JavaScript, TypeScript, Redux Toolkit, and modern frontend technologies. Experienced in building reusable UI components, integrating REST APIs, optimizing application performance through lazy loading and code splitting, and implementing WCAG 2.1 accessibility standards. Skilled in translating Figma designs into production-ready interfaces and collaborating with cross-functional teams in Agile environments. Familiar with Node.js, Express.js, and MongoDB through full-stack project development.

TECHNICAL SKILLS

Frontend Technologies: React.js, Next.js, JavaScript (ES6+), TypeScript, Redux, Redux Toolkit, jQuery, HTML5, CSS3, Tailwind CSS, Material UI, Ant Design, Bootstrap
Backend & APIs: Node.js, Express.js, RESTful APIs, API Integration, Postman
Database: MongoDB
Accessibility: WCAG 2.1, ARIA, Semantic HTML, Keyboard Navigation, Screen Reader Testing, NVDA, JAWS, Axe DevTools
Performance Optimization: Lazy Loading, Code Splitting, Memoization, Image Optimization, Responsive Design, Cross-Browser Compatibility
AI-Powered Development: GitHub Copilot, Claude, ChatGPT, Prompt Engineering, Gemini Ai, copilot
UI/UX: Figma, Wireframing, Component Design, Prototyping, Design Systems
Tools & Methodologies: Git, GitHub, VS Code, NPM, Jira, Agile, Scrum, Postman

PROFESSIONAL EXPERIENCE

Software Engineer | Transcom *Pune, India |Feb 2026 – Jun 2026*

- Developed and enhanced web features using HTML, CSS, JavaScript, and TypeScript for enterprise web applications.
- Resolved WCAG 2.1, ARIA, keyboard navigation, and screen-reader accessibility issues.
- Conducted accessibility testing using NVDA, JAWS, and Axe DevTools to support inclusive user experiences.
- Collaborated with cross-functional teams to improve accessibility compliance and user experience.
- Collaborated with developers, QA teams, and stakeholders while managing tasks and defects through Jira.

Software Engineer | Bravezone Softech (Client: Cognizant) *Pune, India |Oct 2023 – Jan 2026*

- Developed responsive and scalable web applications using React.js, JavaScript, Tailwind CSS, and Material UI.
- Built 50+ reusable React components, improving UI consistency and development efficiency.
- Optimized application performance through lazy loading and code splitting, reducing initial page load time by 30%.
- Collaborated with UI/UX, backend, and QA teams in Agile environments.

PROJECT

E-commerce Platform
Tech stack - JavaScript, jQuery, React.js, HTML, CSS, Accessibility

- Improved web accessibility by fixing WCAG 2.1, ARIA, keyboard navigation, and screen reader issues.
- Developed and enhanced frontend features using JavaScript and jQuery for accessibility-focused web applications.
- Performed accessibility testing and remediation to support inclusive and compliant user experiences.

Integra View – Data Visualization & Reporting Platform
Tech stack - React.js, JavaScript, Nodejs, MongoDB, Redux Toolkit, Chart.js, Tailwind CSS, Material UI

- Developed real-time analytics dashboards displaying 50+ business KPIs, enabling faster data-driven decision-making.
- Built responsive and reusable UI components from Figma designs using React.js and Material UI.
- Integrated REST APIs and managed application state using Redux Toolkit.
- Improved application performance through code optimization, lazy loading, and reusable component architecture.
- Ensured accessibility, responsive design, and cross-browser compatibility across web applications.

Education

Bachelor of Engineering – Information Technology
Bharati Vidyapeeth College of Engineering for Women, Pune | CGPA: 7.74
