SUMMARY

Full Stack Developer with over 3 years of hands-on experience building scalable web applications using React.js, Node.js, and RESTful APIs. Proficient in modern frontend stacks (React, Next.js, TypeScript) and backend leveraging Express, Java, and Python with MySQL and MongoDB databases. Experienced in accessibility standards (WCAG 2.1), unit testing, and Agile team collaboration.

EXPERIENCE

Software Engineer

Feb 2026 – Jun 2026

Transcom, Pune, India

- Architected modular component libraries using React.js and JavaScript, boosting team development speed by 40%
- Developed backend RESTful services and API endpoints using Node.js improving data throughput by 25%.
- Integrated 25+ secure REST APIs with Node.js services, handling dynamic JSON payloads and reducing client-side API response latency by 20%.
- Designed and optimized MySQL database schemas and complex queries, reducing query response times by 30%.
- Achieved 100% WCAG 2.1 compliance across key checkouts by implementing ARIA patterns and automated testing via Axe DevTools.

Associate Software Engineer

Oct 2023 – Jan 2026

Cognizant, Pune, India

- Optimized application performance through dynamic code splitting and lazy loading, improving Lighthouse score from 68 to 94.
- Engineered enterprise dashboards displaying real-time analytics for 50+ KPIs using React Hooks, Redux Toolkit, and Chart.js.
- Migrated legacy e-commerce application modules to Next.js and TypeScript, increasing initial page load performance by 35%.
- Built reusable form components with robust state validation using Redux and Context API, cutting form submission errors by 25%.
- Partnered with UI/UX designers on Figma design systems, ensuring 100% pixel-perfect implementation across modern browsers.
- Authored comprehensive unit and integration test suites with Jest and React Testing Library, maintaining 88% code coverage.

Frontend Developer

Oct 2022 – Apr 2023

Primal Infosys, Pune, India

- Built 15+ responsive frontend user interfaces using React.js, JavaScript (ES6+), and Tailwind CSS.
- Engineered basic relational schemas in MySQL, writing JOIN operations and stored procedures for business reporting.
- Participated in peer code reviews and unit testing, improving codebase reliability and eliminating 25% of pre-release defects.
